

## **Who? Why?**

understanding our true value, worth and purpose

Why do I exist? Does my life have any significance? Who am I? Why am I here? What am I doing? Where am I going? What is living all about anyway?

Are you living a meaningless life?

For some meaning in life is all about achievements.

For others meaning in life is all about happiness – do whatever makes me happy.

Or is ‘meaning in life’ simply the pursuit of physical and intellectual satisfaction and nothing more?

Or do you take a ‘fatalist’ approach to life – just eat, drink, enjoy – for nothing really matters?

## **THE REALITY OF GOD, DESIGN & PURPOSE**

### ***Astounding facts about creation***

They’ve even found in our galaxy  
a planet which is racing through our galaxy  
at 67,000 miles an hour  
At the same time,  
Its also rotating at a 1000 miles an hour  
And this planet is called the earth and this is why you should wear a seatbelt  
Now the earth has a sun or may be we should say our sun has us  
The earth receives 99% of its energy from the sun  
The sun converts for us 4 million tons of energy every second  
And over a 11 year sun cycle, that energy output varies less than one tenth of  
one percent  
All of this at a distance of 93 million miles  
92 million miles – no life on planet earth  
94 million miles – no life on planet earth  
Now the earth is unusual from other planets  
The earth tilts on its axis at 23.5 degrees  
Other planets on the solar system, earth ?)  
Now the question is why does the earth tilt  
If the earth did not tilt, it will run the risk of what is called tidally locked  
Which means one side of the earth would get stuck facing the sun all the time  
While the other side of the earth would not see the sun  
So the one side of the earth would get hotter and hotter until  
It could not sustain human life  
While the other side will get colder and colder until it could not sustain human  
life  
So this 23.5 degree tilt of the earth’s axis is just exactly precise to allow this  
blue and green floating ball  
To sustain human life which raises the question, ‘why does it tilt?’  
It tilts because 40% of gravitational pull that comes from the sun pulls it over  
The other 60% comes from the gravitational pull that comes from a little rock

# Coffee talk

that we have come to know as the moon  
the moon and this pull is what allows planet earth to sustain life,  
no moon... no life...  
which raises the question, how did we get our moon?  
Scientists believe that our moon was some sort of meteor or asteroid flying  
through our galaxy  
And essentially got stuck in the earth's gravitational pull making it  
the cosmic multiple equivalent of .....)  
but I have a dark side  
hydrogen on planet earth must convert 1/7000th of its mass helium  
continually  
for the earth to sustain human life - 0.007  
0.008 - no life, 0.006 - no life on planet earth  
Our atmosphere is 21% oxygen  
23% oxygen - no life  
19% oxygen - no life on planet earth  
The ocean - our oceans are 3.4% salt  
Which is the exact percentage of salt in the human blood stream  
4% of salt in the oceans or our blood stream - no life on planet earth  
2% of salt in the oceans or our blood stream - no life on planet earth  
This is called 'the Science of fine tuning'  
And there are 100s and 100s and 100s of these unbelievably precise numbers  
That all add up to life on planet earth - carbon levels, gravitational force...  
Density of minerals and primal elements  
That all add up perfectly  
Metaphor is this: it's as if there are these dials to create and sustain life on  
planet earth  
It's as if there are 100s and 100s and 100s of these dials and every single one  
of them has been adjusted  
Just perfectly and this one goes to a 11.  
And every single one of them, adjusted just perfectly 100s of them  
It isn't that there are 100s and 100s of them and somehow someone has  
adjusted them just perfectly  
There's the haunting truth that if just one of them were slightly turned in any  
direction  
It would render the accuracy of all of the 100s of others irrelevant  
It isn't that there are 100s and 100s of these dials  
It's if you messed with one of them it wouldn't matter about the precise  
accuracy of every single other one  
What a strange mysterious floating blue and green ball we call HOME.

All of creation, the entire universe is nothing but a huge signpost saying God is real,  
He has designed everything and He has a purpose for all that He created.

**Romans 1:20** By taking a long and thoughtful look at what God has created, people have  
always been able to see what their eyes as such can't see: eternal power, for instance, and the  
mystery of his divine being. So nobody has a good excuse. (Message Bible)

**Psalm 19:1-3**

**1** The heavens declare the glory of God; And the firmament shows His handiwork.

# Coffee talk

2 Day unto day utters speech, And night unto night reveals knowledge.  
3 There is no speech nor language Where their voice is not heard.

Where there is design, there is purpose.

## ***God, our Creator is Infinitely Great***

Psalm 147:4,5

4 He counts the number of the stars; He calls them all by name.  
5 Great is our Lord, and mighty in power; His understanding is infinite.

Isaiah 40:25,26

25 "To whom then will you liken Me, Or to whom shall I be equal?" says the Holy One.  
26 Lift up your eyes on high, And see who has created these things, Who brings out their host by number; He calls them all by name, By the greatness of His might And the strength of His power; Not one is missing.

Romans 11:33 Oh, the depth of the riches both of the wisdom and knowledge of God! How unsearchable are His judgments and His ways past finding out!

**YOU!**

## ***Astounding facts about you***

You were created by God, uniquely designed by Him for a purpose here on earth! You are God's Masterpiece. You are God's handiwork. You were designed in God's own image.

Psalm 139:13,14

13 For You formed my inward parts; You covered me in my mother's womb.  
14 I will praise You, for I am fearfully and wonderfully made; Marvelous are Your works, And that my soul knows very well.

Two main purposes God created you for:

1, for YOU to ***personally relate*** to God  
Adam was created as part of God's family (Luke 3:38)

God does not want you to be involved in dead and meaningless religion that does not engage you personally with Him

God does not want you to have a morbid, unhealthy fear of God - but He wants you to relate to Him as a son or a daughter of God.

2, for YOU to ***personally represent*** God  
Adam was created to represent God on earth (Genesis 1:26)

When you personally relate to God - have a strong personal relationship with God, and make it your primary purpose to personally represent Him here on earth - you will begin your journey of discovery of finding meaning and purpose.

Our whole purpose is to KNOW Him and GLORIFY Him. Out of this comes God's specific purpose for you in life - which gives meaning, defines direction, and directs decisions in life.

# Coffee talk

---

A personal relationship with God is possible because of Jesus.

**John 1:12 But as many as received Him, to them He gave the right to become children of God, to those who believe in His name:**

The Lord Jesus Christ, the One who created all things, became a man, came into this world, and died on the cross - bearing the sin, the shame, the pain of the whole world. All our wrong doing and judgment of our sins was upon Him. He was buried and He rose up the third day! He ascended back into heaven and is alive today. He has the power to forgive sin for everyone who believes in Him.

The meaning of life begins when you meet with the One who is the Creator of life - the Lord Jesus Christ.
