DEVOPS ENGINEER - WEB & MOBILE APPLICATIONS

SUMMARY

IT teams at APC engage in web and mobile application product development and AI/ML applications for church ministry, missions, and outreach. Our goal is to leverage Technology in Missions to bring God's word "to every tribe, tongue, people and nation" (audacious goal, but something to work towards).

We are searching for a passionate and skilled DevOps Engineer to join our dynamic product development team developing cutting-edge web and mobile applications for Christian church, ministry, and missions to further the purposes of God on the earth, to serve people and strengthen their walk with God. You will play a crucial role in building and maintaining a robust and scalable infrastructure for our web and mobile applications (built with Dart, Flutter, and Golang) and AI/ML models. You will collaborate closely with developers, data scientists, and other team members to automate the software development lifecycle and ensure smooth deployments across diverse cloud platforms.

VISION

To develop cutting-edge web and mobile applications that help to strengthen and nurture people in their walk of faith. APC therefore will be able to combine strong anointed ministry with strong organization and maximize its use of IT to be an explosive force for God on the earth.

Please review the APC Organization Chart available on OUR TEAM page (apcwo.org/about-us/our-team).

ROLE DESCRIPTION

The following provides an overview of the responsibilities that we presently envision for this role. These will be continuously updated as new initiatives are explored.

- Design, implement, and manage CI/CD pipelines for web, mobile, and AI/ML projects.
- Automates builds, deployments, and infrastructure management on cloud platforms (GCP, others).
- Automate infrastructure provisioning and configuration with cloud platforms (GCP, others).
- Implement containerization technologies like Docker and Kubernetes for scalable deployments.
- Configure and manage infrastructure monitoring and logging solutions to ensure application health and performance.

- Develop and maintain infrastructure automation scripts using tools like Terraform, Ansible, or Chef.
- Troubleshoot and resolve production issues efficiently and effectively.
- Conduct security audits and implement security best practices for the infrastructure.
- Stay up-to-date with the latest DevOps trends and technologies and propose improvements to the team's workflow.
- Collaborate with developers and data scientists to bridge the gap between development and operations.

QUALIFICATIONS/EXPERIENCE REQUIREMENTS
- Must have a definite call of God to this kind of ministry role, with a strong passion for God's Word and depth in the Spirit.
- Must be passionate about local church ministry, discipling, equipping and empowering people for Kingdom purposes.
- Bachelor's degree in Computer Science, Information Technology, or a related field or equivalent work experience.
- 2+ years of experience as a DevOps Engineer or related role.
- Strong understanding of CI/CD principles and practices.
- Proven experience with cloud platforms (GCP, others) and containerization technologies like Docker and Kubernetes.
- Proficiency in scripting languages like Bash, Python, or YAML.
- Experience with infrastructure automation tools like Terraform, Ansible, or Chef.
- Strong understanding of infrastructure monitoring and logging solutions.
- Passion for learning new technologies and adapting to a fast-paced environment.
- Excellent communication and collaboration skills, with the ability to work effectively in a team environment.
- Strong problem-solving skills and a passion for learning new technologies.
- Proven ability to work independently and as part of a cross-functional team.
- Preference will be given to those who have been actively involved in serving at APC, Bangalore.

As APC is a local church and Christian ministry, all positions require people who are passionate about Jesus Christ, and who are called, anointed, and committed to serving Him and people to see lives touched and transformed into Christlikeness.

ABOUT ALL PEOPLES CHURCH

All Peoples Church is a Jesus loving, Word focused, Spirit-filled, family church, an equipping center, a missions base, and a world outreach.

As a **family church**, we grow together as a community in Christ centered fellowship, caring and serving each other in love as the assembly of God.

As an **equipping center** we empower and equip every believer to live victoriously, mature into Christlikeness and fulfil God's purposes for their lives.

As a **missions base** we engage in meaningful ministry to bless our city, nation and the nations with the full Gospel of Jesus Christ through the Word of God and supernatural demonstrations of the power of the Holy Spirit.

As a **world outreach** we serve locally and globally by nurturing godly leaders and Spirit filled churches who can impact their regions for the Kingdom of God.

The vision of All Peoples Church is to be salt and light in the city of Bangalore and a voice to the nation of India and to the nations.
