SECURITY ENGINEER - WEB & MOBILE APPLICATIONS

SUMMARY

IT teams at APC engage in web and mobile application product development and AI/ML applications for church ministry, missions, and outreach. Our goal is to leverage Technology in Missions to bring God's word "to every tribe, tongue, people and nation" (audacious goal, but something to work towards).

We are seeking a passionate and proactive Security Engineer to join our dynamic product development team developing next-generation web and mobile applications for Christian church, ministry, and missions to further the purposes of God on the earth, to serve people and strengthen their walk with God. You will play a critical role in safeguarding our web and mobile applications built with Dart, Flutter, and Golang, deployed on cloud platforms like GCP and others. We are also venturing into the exciting world of AI/ML, and your expertise will be invaluable in securing these cutting-edge applications.

VISION

To develop cutting-edge web and mobile applications that help to strengthen and nurture people in their walk of faith. APC therefore will be able to combine strong anointed ministry with strong organization and maximize its use of IT to be an explosive force for God on the earth.

Please review the APC Organization Chart available on OUR TEAM page (apcwo.org/about-us/our-team).

ROLE DESCRIPTION

The following provides an overview of the responsibilities that we presently envision for this role. These will be continuously updated as new initiatives are explored.

- Conduct security assessments of web and mobile applications throughout the software development lifecycle (SDLC), including threat modeling, vulnerability scanning, penetration testing, and code reviews.
- Implement and maintain secure coding practices for Dart, Flutter, and Golang code, promoting secure architecture and design principles.
- Stay updated on the latest security threats and vulnerabilities relevant to web, mobile, and cloud platforms, including AI/ML specific attack vectors.
- Collaborate with developers, DevOps engineers, and product team leaders to integrate security considerations into all phases of the development process.

- Manage and monitor security incidents, responding promptly and effectively to mitigate potential risks.
- Research and evaluate new security tools and technologies, recommending their adoption and integration into our security framework.
- Develop and maintain security documentation, policies, and procedures.
- Communicate security risks and recommendations effectively to team members.

QUALIFICATIONS/EXPERIENCE REQUIREMENTS

- Must have a definite call of God to this kind of ministry role, with a strong passion for God's Word and depth in the Spirit.
- Must be passionate about local church ministry, discipling, equipping and empowering people for Kingdom purposes.
- Bachelor's degree in Computer Science, Information Security, or a related field or equivalent work experience.
- 3+ years of experience in application security, ideally with experience in web and mobile security.
- Strong understanding of secure coding practices in Dart, Flutter, and Golang.
- Expertise in common web and mobile application vulnerabilities and attack vectors.
- Experience with security assessment tools like scanners, penetration testing platforms, and code analysis tools.
- Familiarity with cloud security concepts and experience with platforms like GCP or AWS is a plus.
- Understanding of AI/ML security threats and mitigation strategies is desirable.
- Passion for software application security and a continuous learning mindset.
- Excellent written and verbal communication skills, with the ability to effectively present technical information to both technical and non-technical audiences.
- Proven ability to work independently and as part of a cross-functional team.
- Preference will be given to those who have been actively involved in serving at APC, Bangalore.

As APC is a local church and Christian ministry, all positions require people who are passionate about Jesus Christ, and who are called, anointed, and committed to serving Him and people to see lives touched and transformed into Christlikeness.

ABOUT ALL PEOPLES CHURCH

All Peoples Church is a Jesus loving, Word focused, Spirit-filled, family church, an equipping center, a missions base, and a world outreach.

As a **family church**, we grow together as a community in Christ centered fellowship, caring and serving each other in love as the assembly of God.

As an **equipping center** we empower and equip every believer to live victoriously, mature into Christlikeness and fulfil God's purposes for their lives.

As a **missions base** we engage in meaningful ministry to bless our city, nation and the nations with the full Gospel of Jesus Christ through the Word of God and supernatural demonstrations of the power of the Holy Spirit.

As a **world outreach** we serve locally and globally by nurturing godly leaders and Spirit filled churches who can impact their regions for the Kingdom of God.

The vision of All Peoples Church is to be salt and light in the city of Bangalore and a voice to the nation of India and to the nations.
